

# INDOOR KIOSKS

Screen Solutions Indoor Kiosks are a stock product but individually customized to customer specifications. Our indoor kiosks combine the latest and most effective digital signage and multitouch hardware in sleek, attractive designs that can be incorporated beautifully into almost any indoor environment or setting. Our vandal-resistant design ensures that your interactive kiosk will continue to perform under heavy use conditions.

SSI standard systems come ready for you to load your PC or Mac operating system. We also offer turn-key systems with integrated CPUs - just plug in, load your interactive content and you're up and running!
