

# REFLECTION FRONT-PROJECTION FILM

Going beyond the limitations of traditional front projection screens, the Reflection Front Film presents new options and possibilities for both home and professional display applications. Reflection's high contrast image quality and ability to open up new display areas is unmatched.

Reflection front film can be applied to any glass or acrylic surface to provide high-quality, floating images. The Reflection front film will not hot spot and its high contrast design gives you the ability to combat high ambient light environments.

With large, seamless sizes and the ability to be tiled, Reflection front film gives you new and unlimited possibilities.
