

REFLECTION FRONT-PROJECTION SCREEN

Going beyond the limitations of traditional front-projection screens, the Reflection Front Screen presents new options and possibilities for both home and professional display applications. Reflection's durability and image quality are unmatched.

Screen Solutions Reflection Front-Projection Screen is perfect for home theater screen applications. Unlike traditional fabric screens, the matte white surface of reflection provides truer color representation. No hot-spotting - guaranteed! This front-projection screen will last the lifetime of your installation, will not sag, warp, fade, or peel - making replacement cost a thing of the past. The Reflection Front-Projection Screen is made without films or layers allowing for easy cleanability.

For office use, our Reflection Screen works well with interactive white board pens and markers. Because it is rigid, reasonable pressure from writing activities will not damage the screen.

Common Applications for Reflection Screens

- Shopping Malls
- Subways
- Transit Stations
- Airports
- Theaters
- Industrial
- Class Rooms
- Conference Rooms

Framing Options
