

ULTRA CLEAR FRONT PROJECTION FILM

Ultra Clear Front projection film is a revolutionary new product that gives you the highest levels of transparency, with perfectly clear and crisp images using a front projection set up. Boardrooms, observation rooms, museums, broadcast sets and more can benefit from this new film. Incredibly, Ultra Clear Front Projection Film gives you the ability to have a front projection installation with a holographic look and feel - something typically only accomplished with rear projection installations.

Common Applications for Intrigue Film

- Tradeshow Displays
- In-Store Displays
- POP Displays
- Lobbies
- Boardrooms
